

IMPROVED  
In Some Degree is Pope's General Condition.

Sleep Last Night Was Broken at Frequent Intervals.

Latest Bulletins Would Indicate That the Pontiff's Vitality is Not Yet Exhausted—Touching Devotion of Aged Valet.

ROME, JULY 11, 7 P. M.—THE POPE'S CONDITION HAS ESPECIALLY IMPROVED IN THE PAST HOUR.

Rome, July 11—4 p. m.—The Pope, who fell asleep early today continues to sleep. This is considered a bad sign as indicating increasing weakness.

Rome, July 11—(Noon) Several high officials who have just left the Vatican, told your correspondent that the reports that the Pope is on the verge of death are quite false. They said: Unless there are unexpected developments we believe the Pope will live, probably for a fortnight. Ultimately the catastrophe in our opinion however, is sure.

Rome, July 11—(Bulletin)—The Pope's physician issued a bulletin at 9:30 this morning, which stated that the Pope has gained somewhat during the night. The bulletin read: "The Pope slept during the night at intervals. His pulse is now 90 and has been without irregularity since yesterday evening. His respiration is 30, his temperature 36 degrees centigrade. His renal functions are still deficient but his general condition is somewhat ameliorated. Signed, Mazzoni and Laponi."

Rome, July 11—The general condition of the Pope is ameliorated was the news which greeted early callers at the Vatican this morning. Immediately a more optimistic spirit became prevalent in many circles, some even going so far as to fall in line with the opinion of Cardinal Satelli, that his Holiness would eventually throw off the complications which are now troubling him and perhaps live for several years. This feeling of optimism was enhanced by the physician's bulletin, which appeared at 9:30 and which was more favorable than any which had been issued since his Holiness relapsed on Thursday afternoon. On the other hand, the more thoughtful were chary in expressing their belief that there was any ground for hope. The Pope, they pointed out, is still in a precarious condition and it would not take much of a set back to hasten his end.

This class also had good grounds for their opinion as it became known this morning that the feature of the patient's illness which is now causing his doctors the greatest anxiety is the continued lack of his kidneys to exercise their functions. They are almost devoid of action. This complication is a most serious one as nothing will bring about a fatal end to his Holiness' illness more quickly or more surely than uric poisoning.

The night was a long one to his Holiness, as, despite the fact that he slept on a number of occasions his sleep was but at intervals, and he was often wakeful and restless. His main companion during those long hours, was Ploccentra, his valet. The devotion of Plo is remarkable. Hardly can he be forced away from the prelates side and when he does leave it is to sleep but for a short time and when he awakens he asks for the Pope's condition.

The pontiff and Plo had several conversations during the night. On one occasion when the valet had been particularly attentive the prelate stroked his hand, saying: "My Plo what should I do without you?"

Plo broke into sobs and replied: "If we are separated it will not be for long. I shall follow you."

He then rushed from the room with tears streaming down his cheeks. Those in the room at the time were

find it difficult to do so now, as no Italian cardinal even among those who are most conciliatory, would undertake to represent United Italy, which is considered by the church to have usurped the temporal sovereignty of the Papacy. Besides, Italy's policy consists in considering the Papacy to be merely the spiritual power, while enjoying under Italian law complete liberty and independence, can without political intervention exercise its ministry in Rome, the capital of the kingdom.

Portugal also claims to be entitled to veto the election of an undesirable cardinal to the Papacy, but her right has never been acknowledged.

Austria tried at both the last conclaves respectively to prevent the election of Pius IX. and Leo XIII, but the two Cardinals, Gawruck and Ganglebiur, deputed for the task, both arrived too late.

The last time the "right of exclusion" was successfully employed was in 1825, when Spain prevented Cardinal Giustinian from being elected Pope when he had already received 21 out of 29 votes necessary to reach the required two thirds votes necessary for election. Cardinal Giustinian was so disappointed that he died shortly after the conclave.

BATTLE  
THAT HAD BLOODY RESULT LAST-ED FIVE DAYS.

Japanese and Mexicans Employed as Section Men on Santa Fe, Riot and Murder.

Los Angeles, Cal., July 11—One hundred and fifty Japanese and the same number of Mexicans employed as rail layers by the Santa Fe have been engaged in a bloody battle for five days on the desert between Victorville and Barstow according to advices received here. Four men have been killed and between forty and fifty wounded and the fight continues. The trouble was started by an insulting remark a Japanese made about a Mexican. Blows quickly followed and then each side resorted to the use of tools and boulders. The Japanese were driven across the river, where they entrenched themselves. The Mexicans, stormed the earthworks Friday and two men were killed. State troops may have to be called out to quell the trouble.

TWO MORE

Deaths as Result of Terrible Railroad Crossing Accident Near Cincinnati Thursday Evening.

Cincinnati, O., July 11—Two more deaths have been added to the list, caused by the railroad accident at Red Bank Thursday evening, when Pennsylvania excursion train crashed into a wagon containing the Copenhaver family. Halbert Copenhaver, 11 year old boy, died at 11 o'clock Friday night, and Nellie, 9 year old girl, died at 6 o'clock Saturday morning.

With the death of these two children the Copenhaver family is almost wiped out, as out of a family of seven only two remains alive. These are the mother, who was not in the wagon when it was struck by the engine, and little Samuel Copenhaver, aged 2. He escaped all injury with the exception of a few small cuts about the head.

BABE  
Assaulted Then Murdered

Frightful Crime Committed In Illinois.

MUTILATED BODY FOUND IN A CLUMP OF BUSHES.

BY THE HORRIFIED FATHER.

Bloodhounds Are on the Fiend's Trail and Should He be Caught a Lynching Will Follow.

Bloomington, Ill., July 11—Bloodhounds are on the trail of the fiend who committed the most awful crime in the history of Bloomington Thursday night.

Belle Jordan, the two year old daughter of Andrew Jordan, a hay dealer residing in the southwestern part of the city, was the innocent victim. The creature assaulted the child and then killed her. The horribly mangled body was found late Friday afternoon hidden under some bushes in a pasture, a mile from where the parents resided.

If the perpetrator of the outrage is apprehended it is declared he will have short shift. The police department of villages and towns for 50 miles around are arresting all suspicious characters, but the long start secured by the murderer may give him an advantage to save his neck.

The theory has been suggested that the crime was committed by a maniac, possibly the same person who recently murdered and mangled a little newsboy at Rockford.

The first theory was that of kidnapping. It seems that the father and mother left home to attend a summer theatre, leaving the babe, the youngest of a family of seven, in the care of two older daughters. The girls remained at the home of a neighbor until the babe grew sleepy, when they brought it home and placed it in its crib.

After it had gone to sleep the sisters returned to the neighbor's, and after an hour's absence returned to find the child missing. They at once sent for the police who called in. Tracks from buggy wheels were found near the house, and it was first thought that kidnapers had watched their opportunity and taken the child away. This theory appeared the only plausible one, and the night was spent in looking for the persons responsible.

The search was kept up and late Friday afternoon the father accidentally found the body almost naked and in a frightful condition. The assailant, after criminally assaulting the child, had choked it to death, the little head being almost twisted from the body. The limbs were torn a-sunder and the little body was a mass of cuts and bruises.

The sight sickened all who were attracted to the scene, the body being left undisturbed in the hope that some clue might be secured. The discovery that murder had been committed dismissed the kidnapping theory, and the efforts of the police turned in a new direction. Not a single person of a suspicious character had been seen in the vicinity of the house. One conjecture that appears plausible is that some tramp in passing carried the child away, and then, to conceal the crime, murdered and attempted to hide the body.

No crime in years has so aroused the people of Bloomington, and vengeance is hinted in case that the right person is captured. The little girl was strikingly beautiful, and her awful fate has created widespread sympathy for the stricken parents.

CASE WILL GO TO JURY NEXT WEEK

Hamilton, O., July 11—The testimony in the Alfred A. Knapp murder case will be concluded today and the case,

will go to the jury not later than next Tuesday or Wednesday.

Knapp showed the effects of the heat and strain and appeared near prostration. He removed his coat for the first time and held his head in his hands continually.

Lawyer Darby was able to take part in the examination of witnesses today and for the first time since his prostration.

Yesterday's testimony was entirely in rebuttal of the theory of insanity and Prosecutor Gard will today, call several doctors who examined Knapp in jail immediately after his arrest and pronounced him sane.

The witnesses were all acquaintances of Knapp, and all regarded him as sane. They were: Lizzie Granham, William Lenehan, Albert Sanders, Geo. Dreher, Carrie Carr, Oscar Sanders, Joseph Gross, George Theobald, Edward Barner and John Ryan.

Lenehan's opinion was stricken out by the court, because of the inadequate basis, and several witnesses knew very little of Knapp.

WOMAN IN ROLE OF ENOCH ARDEN

Rockford, Ill., July 11—A woman in the hole of Enoch Arden returned to Rockford yesterday after a absence of 21 years.

Twenty-one years ago Mrs. Louise Olson was injured in a railroad wreck near Buffalo, N. Y. She was taken to a hospital but recovered.

Her mind was not quite clear however, and she wandered to France. Another victim of the wreck died in the hospital and by mistake was buried as Mrs. Olson.

When Mrs. Olson returned to Rockford yesterday she found the two babies she had left—Hilda and Frank—full grown and surprised beyond measure at her return.

Alexander Olson, her husband she found living with his third wife, the second Mrs. Olson, whom he married while believing fully in his first wife's death, having died some years ago. Olson fully identified the returned one as his first wife.

The latter still recognizes the rights of the third wife and will live with her recovered children.

MRS. BLAINE  
Rapidly Failing, and Her Death May Occur at Any Time.

Augusta, Maine, July 11—Mrs. Jas. G. Blaine, widow of the former secretary of state, is failing rapidly. She has been unable to recognize friends for some time. She is able to take only liquid nourishment and her speech is practically gone.

She remains in a semi-comatose condition, and the attending physician says that while she may continue a week or more in that condition her death may be expected at any moment. The members of the family are all here.

PRESIDENT

DECLINES THE INVITATION TO ATTEND ENCAMPMENT

Extended by Senator Keen of New Jersey—Has Refused Several Similar Invitations.

Oyster Bay, N. J., July 11—Senator Keen of New Jersey, Senator Frank Hiscock, State Senator Francis Hendricks, and ex-District Attorney Eugene A. Philbin, were President Roosevelt's guests at lunch this afternoon. Senator Keen came to urge the President to attend the Jersey militia encampment at Seagirt. President Roosevelt said he would be glad, could he see his way clear to do so, but as he had already declined a number of similar invitations this year and was the guest of the New Jersey National Guard last summer, he felt that he would be obliged to forego the trip.

The call of Messrs. Philbin, Hiscock and Hendricks were purely social in character.

Secretary Loch left for his vacation this morning. He will divide his time between Albany and Lake George. Assistant Secretary B. F. Barnes will be in charge of the executive offices during his absence.

STATE OF SIEGE  
Exists In Sofia Where Troops Patrol the Streets To Prevent a Repetition of the Servian Assassination.

London, July 11—A dispatch received from Sofia, says the Odesa correspondent of the Standard, leaves no room for doubt that the gravity of the situation in the Balkan principality is daily and hourly increasing. Sofia is practically in a state of siege. The streets are patrolled by infantry and wherever over three persons are gathered they are threatened with arrest. The position of Prince Ferdinand becomes daily more precarious. His anathematization of the Danubian ministry have incensed his already dissatisfied subjects who openly accuse him of planning to carry out a coup d'etat similar to that which led to the assassination of King Alexander of Servia.

According to a Constantinople dispatch to the Daily Telegraph a special session of the ministerial council was held on July 8, at which it is said, the war party insisted on Turkey's right to continue the occupation of strategic points on the frontier, in spite of Austrian and Russian remonstrances. It was maintained that it was impossible to act otherwise lest Turkey be caught unprepared. The dispatch adds that a panic occurred on the Bourse yesterday and Turkish bonds fell 1 1/2 points owing to sales by palace functionaries.

News from Salonica shows that the belief prevails there that war between Turkey and Bulgaria is imminent. Bulgarian bands in Macedonia are being reorganized under officers sent from Sofia for use as scouts and guerillas, and a large concentration of troops is taking place in the hills near Yenidje, though orders have been issued to avoid an immediate conflict with the Turks, who are concentrating large forces at Koumanov.

AMERICANS  
BEAT THE ENGLISHMEN SHOOTING AT 900 YARDS.

International Match Between Seven Countries Opened Today With Americans in Good Form.

Bisley, Eng., July 11—The international shooting match between the teams representing American, England, Australia, Canada, France, Natal, and Norway was held here today. The weather was perfect for the match and a great crowd representing a half dozen different nations was present.

The America team from the start showed excellent form, and promised to give a keen fight for the Plama trophy, the prize for the match. After the 800 yard range had been finished the English team led the Americans by three points. The score then stood England 554, America 531, Canada 536, Natal 513, France 491, Norway 447, Australia did not finish.

The men who are shooting on the American team follow: Lieut. A. E. Wells, of the 71st regiment, New York; Sergeant George Boyle, of the 71st regiment, New York; Corporal W. D. Short of the 7th regiment, N. G. N. Y.; Lieut. K. K. Casey of the 71st regiment, N. Y.; Sergeant J. H. Keogh of the 6th regiment, N. G., Mass.; Corporal C. E. Winder of the Sixth regiment, N. G., Ohio; Private George Cook of the first regiment, N. G., District of Columbia; Lieut. Thomas Holcomb, Jr., of the U. S. Marine Corps.

At the 900 yard range the Americans defeated the Englishmen by a margin of eleven. The scores were: America 715, England 504, Canada 494, Australia 192, Natal 417, Norway 408.

Bisley, Eng., July 11—The American team has won the Palma trophy, at the international shooting match held here today.

The total number of points made by the American team was 1,570; England 1,555; Canada 1,518; Australia 1,501; France and Norway tied at 1,249 and Natal 1,399.

INDICTMENTS  
FOUND AGAINST EVANSVILLE CITIZENS BY GRAND JURY.

Lee Brown, the Negro Whom the Mob Wanted, Will be Taken Back to Evansville for Trial.

Evansville, Ind., July 11—The grand jury is still in session pushing the investigation of the mob of Monday night. Thus far ten white men have been arrested on charges of taking part in the mob violence. All are held under bond. Several of the persons arrested are well known and heretofore respected citizens, some being business men. The grand jury has taken up the matter of the negro rioters Sunday night and indictments against a large number of the band of colored men who armed themselves with guns and axes and marched through the streets, precipitating the trouble, are expected to be returned today.

The Evansville Business Association has taken up the matter of adverse criticism of the city administration which is being indulged in by some of the members who have indicted vitriolic cards, which have been published in certain newspapers abroad. A meeting of the association will be called for the purpose of investigating these members and possibly expelling them.

The city is very quiet. There has been no demonstration to mar the peace which has come to the city since the leaving of the troops.

Indianapolis, Ind., July 11—In a letter to Judge Rausch at Evansville today, Governor Durbin consents to the immediate removal of the negro Lee Brown, who was wanted by the mob at Evansville the first of the week. Brown is in the Jeffersonville reformatory now and will be taken to Evansville. The governor's letter was evidently written in answer to an inquiry from Rausch as to what authority the governor had for countermarching the order of the judge that the negro be tried at once. The letter said:

"I have not at any time claimed jurisdiction over this negro. It would have been usurpation of my authority for me to do so. I suggested that he be not tried now. I did not direct. It is for you to determine when he shall be tried and in case of danger you will rest assured that the whole military power of this state is back of you.

Secret orders have been given for the military to be readiness to respond to a call to go to Evansville as trouble is feared.

KISSED

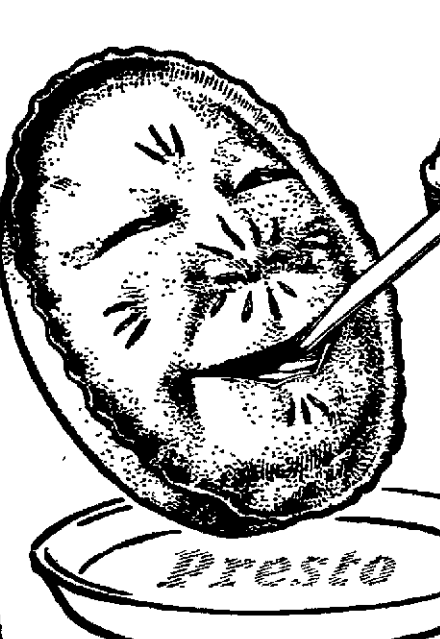

Sir Thomas Lipton on the Cheek, Did Gertrude Quinlan—The Yachtsman Fled Precipitately.

New York, July 11—Sir Thomas Lipton was the guest of the Atlantic Yacht club last night at a performance of the Sultan of Sulu at Manhattan Beach, and after the show he visited the Sultan's harem behind the scenes. Sir Thomas is a bachelor and his experience last night must have surprised him. While Gertrude Quinlan the Sultan's fourth wife was planning a shantrock on the harbor's coast she kissed him on the cheek. Sir Thomas fled precipitately, but later sent an invitation to the company to visit him on his yacht. The yacht was decorated with various racing flags and many prominent yachtsmen attended.

An enormous attendance, amounting to \$25,000, sent to the conscience of the United States during the fiscal year.

Two hundred and sixty-four out of every 1,000 of the world's population own King Edward VII. as their sovereign. Ninety are Russians, 63 are French, 60 United States subjects and 49 German.

“But, never again will they need to do that, since now they use ‘magical’ PRESTO.”

### LEASES

FOR VALUABLE GAS LANDS IN COSHOCTON COUNTY

Filed Friday by A. H. Heisey & Co. of Newark—Mr. Heisey Not Prepared to Tell His Plans.

Coshocton, O., July 11—A flurry was created here Friday by the filing of leases for over 7,000 acres of oil and gas lands in the northern part of the county, most of them taken by A. H. Heisey & Co. of Newark. It is understood the company will prospect and will sink five wells.

Mr. A. H. Heisey was shown the above Coshocton dispatch and asked concerning his intentions in the matter. He said he had the leases and that was all he was prepared to say at this time.

“That we will sink five wells or any other number, or what we will do is pure guess work on the part of the people there, and let them guess: it will do no harm. I am not prepared at this time to tell the public what my plans are in the Coshocton field.”

### NEW OIL WELL GIVES PROMISE

Roseville, O., July 11—The second oil well drilled in this territory was shot yesterday and the town is greatly excited over the promising prospects of the new well and the declaration of managers of the operating company, that they are satisfied with the outlook and will continue to develop the local field.

The well that was shot is on the Harkness farm, about an eighth of a mile distant from the well that was shot a couple of months ago and which did not yield a promising supply of oil. An experienced oil man from Marietta shot the well at 11 o'clock.

The well is down 952 feet and extends 23 feet into the Berer sand.

Shortly after noon the experts stated that there is more than 300 feet of oil standing in the well, and it is confidently believed that it will be a 25 or 30 barrel well per day, when pumping is begun.

Zanesville, O., July 11—This city has been briefly notified that one of the severest storms in the history of northern Muskingum county passed over the town of Dresden, Frazeyburg, Adams Mills, Conesville and touched Coshocton about noon Friday.

### NOVEL TRACK LAYER.

Rails Laid From Construction Trains Moving 1,800 Feet an Hour.

At the rate of three and a half miles a day a peculiar piece of mechanism is laying the tracks of the Cincinnati, Richmond and Muncie railroad, says the Cincinnati Enquirer. This track laying machine automatically and accurately lifts the ties and rails into position, the most drudging labor in all railroad construction. It also furnishes the motive power for its own construction train.

There were stretches of roadbed over which the construction train moved at a rate of 1,800 feet an hour. The machine utilized was one which differs in many essentials from that which has been used west of the Mississippi river. One of its most interesting features is the manner in which the material is delivered to the roadbed and the comparatively few men required for the different operations, as the ties and rails are lifted and moved from the cars on which they are carried to the roadbed, being connected and spiked while the train is in motion.

An endless chain carrier puts the ties in position, while a crane suspended upon a steel truss lowers the rails in advance of the construction train.

The machine weighs fifty tons and was made in Scranton, Pa. It is the only one of its kind in existence, and its inventor, Mr. Hurley, who accompanies the machine, spent ten years in perfecting it and thousands of dollars on models before success crowned his efforts. The work done upon the Cincinnati, Richmond and Muncie road demonstrated that a force of about forty competent men was all that are required to operate the machine to its fullest capacity and then when conditions are favorable over three miles of track in a day of ten hours could be put down without difficulty, while an average of over two and one-half miles could be recorded. The gearing on which the material is conveyed from the platform through the machine can be doubled. The weight of the rails handled includes the heaviest used for standard gauge construction, some of them averaging 400 tons to the mile.

The track layer has also been operated successfully in the winter season on days when the mercury was below the zero point.

It has given me great relief, and I would not be without a bottle at hand, as I think it a very valuable preparation for the stomach, and have no objections to your using my name as an endorsement of this, what I regard a great remedy for stomach trouble. ## DARING ATTEMPT

Of Three Prisoners to Escape from the Licking County Jail—Two Recaptured by City Police.

Three prisoners confined in the County jail made a desperate attempt to escape about 2:30 o'clock. They were Thomas Harrington, charged with assault and battery and David McLaughlin, the same, and Walter Wood, who was charged with sodomy.

These three men, together with three others had been given the freedom of the corridor today.

This afternoon as Jailor Jamison was showing some visitors through the corridor on the north side of the jail, Harrington, Woods and McLaughlin broke down the temporary fastenings that had been made in the bath room where Costley made his escape, and made their way out into the corridor on the south side of the jail. Here they took off their shoes and ran around the corridor to the main door, which was open, and down the stairs to the office. Here they jumped out of the window and ran swiftly away.

The escape was witnessed by several persons and the alarm given. In a few minutes a large crowd was assembled around the jail, and the officers were hot on the trail of the prisoners.

Inside of half an hour two of the prisoners were back behind the bars, Officer Hager having captured McLaughlin and Officer Carroll bringing in Harrington. At the time the Advocate went to press at 3:30 o'clock, Woods had not been recaptured.

Sheriff Anderson says that the prisoners, made their escape through the hole made by Costley and that it had never been repaired although the Commissioners have ordered a new steel grating for it.

## PYTHIAN MEMORIAL

At Bladensburg—Address Delivered by Judge E. M. P. Brister of This City.

(Mt. Vernon Banner.)

The Memorial services Sunday were fine. The Sir Knights filed into the church during the singing of the beautiful and impressive anthem, "Lead Kindly Lights," after which Dr. Stonehocker, as master of ceremonies asked the audience to bow their heads while M. C. Cummins offered prayer. After another song by the quartet which consisted of Dr. Coaner, C. C. Cumrine, Mrs. Maud and Mrs. Dora Elliott. Judge Brister, of Newark, was introduced. Then followed an eloquent address. He spoke of the vast number of Pythians in the world and that Ohio is the banner state. Out of the 650,000 Ohio can claim 1-10 of the number. He related the beautiful story of Damon and Pythias. He closed his address by saying every true knight lives an unselfish life and dies one.

Mrs. James Elliott then sang a duet, "My Mother's Angel Face," which was composed by Judge Brister, after which Joseph Myers a brother knight, gave an excellent talk. The meeting was closed by the quartet singing, "Blessed are the dead which die in the Lord." The Knights silently filed out again and marched to their hall, where they broke ranks.

## New Way to Grow Sugar Cane.

A committee of the Planters' society has made a report on a special mode of growing sugar cane which has been tried at Havana, says the Philadelphia Press. It consists of planting the cane in rows four yards apart, each plant or group of shoots being three yards from the next, thus allowing the roots and foliage full scope. Only those shoots and pieces of cane which are full grown are cut, the smaller ones being left to ripen. The committee says that by this means the yield to the acre is enormously increased. It is said that the yield in weight of cane of the piece of land on which the experiment was made was 100 per cent greater than is obtained by the present method, by which the cane is grown much closer. Further experiments will be made.

## Quaint Chart For St. Louis Fair.

Among the exhibits of the post office department at the St. Louis exposition will be a quaint wooden chart formerly used in the post office at Manila during Spanish occupation. This chart was hung on the wall of the building, and the names of those who had letters or newspapers were written and exposed to the public on slips of paper which fitted into notches upon its surface. When a Filipino saw his name on the chart he inquired at the window for his letters. If he did not find his name there was no use in bothering the delivery clerk. Similar arrangements are found in many of the towns and smaller cities in Spain and in some parts of South America.

## PROCTOR'S PICKINGS.

Some fear that Senator Redfield Proctor if Vermont is not solid for Roosevelt has been occasioned by the "discovery" of a scandal in the war department. It has actually been learned that the senator is interested in the Vermont marble works of Proctor, Vt., which for a number of years has had the government contract for supplying tombstones for dead soldiers. It is the more singular that this fact was not discovered before, because, as mentioned in the dispatches, "in a number of instances Senator Proctor's son has called at the war department in connection with the bids of his father's company for supplying thousands of headstones to the army."

It is probable that everybody about Washington, except the war department, knew that Proctor was interested in the Vermont Marble company. Vermont's chief product is tombstones and a Vermontian has to engage in some kind of business to make a living. But it is equally surprising that the war department has also just made the discovery that the federal laws prohibiting congressmen from having an interest in government contracts exempt those who hold stock in a corporation that has government contracts. This "discovery" will prevent any prosecution of Senator Proctor and all that will come of the matter is the publication of the facts by the administration.

By a little more strenuous effort the administration might discover that Senator Proctor has also taken care of his company in the Dingley tariff law. That safeguard of the American workingman puts a duty of 65 cents per cubic foot on marble blocks, "rough or squared," and \$1.10 per cubic foot on marble "sawed or dressed," over two inches thick. On thinner slabs there is a graduated duty of 12 to 18 cents per superficial foot, according to thickness, with 2 cents additional if the slabs have been "rubbed." Besides this "manufactures" of marble have a duty of 50 per cent ad valorem. Senator Proctor is a reliable, practical Republican and no doubt he will be for Roosevelt in due time.

## A Sustaining Diet.

There are the enervating days, when as somebody has said, men drop by the sunstroke as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic—say, a sustaining diet. It makes it much easier to bear the heat assures refreshing sleep, and will without any doubt avert much sickness at this time of year.

## FACTORY LAWS

All the factory inspectors in the state have been instructed by the state factory inspector to notify all aldermen, justices of the peace and notaries public of the law regarding the employ-

ment of children under 16 years of age in factories, department stores, etc. The new law stipulates that when an alderman, a justice of the peace or a notary public issues a permit for a child to work in a factory or store, such person authorized to issue the same must be shown a certificate of birth or baptism of the child, the child must write his or her name on the certificate, and in no case must a permit be issued for a child under 13 years of age.

The instructions are most emphatic and anyone violating the law will be dealt with severely. The deputies are also instructed to see that no woman or girls are employed in stores more than 12 hours in any one day, or more than 60 hours during one week.

## Moons in the Solar System.

There are at least twenty moons in the solar system. Saturn alone has eight, the biggest of them, Titan, being nearly twice the size of the moon, and Jupiter possesses four, ranging in dimensions upward from Europa, just about as large as the orb of terrestrial night, to Ganymede, greatest of all known moons, with a diameter of 3,480 miles, whereas the moon belonging to this world is only 2,160 miles through.

## THE CALL

For the Democratic State Convention--Zimmerman's Candidacy for Governor Growing in Great Favor--Candidates for the Senatorial Endorsement.

Columbus, July 11.—The official call for the Democratic state convention, which is to be held in this city Tuesday and Wednesday, August 25, 26, has been issued by Chairman W. J. Frey and Secretary Harry Payer. The convention will be a one day affair, however, since no provision is made for a meeting of the convention proper on Tuesday. The district meetings will be held Tuesday afternoon at five o'clock instead of at 2 o'clock as heretofore. The apportionment is one delegate and one alternate for each 500 votes cast for Herbert S. Bigelow for secretary of state last November, and one additional delegate and alternate for the remainder of votes exceeding 250. The temporary officers of the convention are heretofore publisher are G. M. Saltzgeber, chairman; Charles E. Mason, secretary; L. B. Houck and Charles Marshall, assistant secretaries; Joe Goldsoll and John Dugan respectively, sergeant at arms and assistant sergeant at arms. The official call requires action for the endorsement or rejection of the proposed constitutional amendments and the nomination of a candidate for United States Senator.

Licking county will have ten delegates in the convention.

Political interest of the week centers in John L. Zimmerman's formal announcement of his candidacy for the Democratic nomination for governor. This announcement is something of a novelty. It probably marks the first time in which any candidate of either party for governor has openly stated his attitude in a signed communication directed to the voters. Mr. Zimmerman is being congratulated on his candor in thus making his position known beyond the shadow of a doubt. It may be stated positively that his candidacy is not contingent upon anything but will be pressed to the end. Mr. Zimmerman's friends are very enthusiastic over the outlook and claim his nomination as something already practically established. They hope for a harmonious convention and claim that their candidate may receive Mayor Johnson's support and thereby obtain the nomination by acclamation; but regardless of this it is well understood that the Zimmerman candidacy will not be dependent on the support of any leading Democrats who have been

suggested as rivals for the first place on the ticket.

The rumor is afloat that State Senator J. Edward Hurst of Tuscarawas county, would not be adverse to receiving the nomination for lieutenant governor. Editor H. H. McFadden of Steubenville is also being mentioned in this connection.

Allen W. Thurman of Columbus is lining up his friends all over the state in support of his candidacy for the endorsement for United States Senator. Mr. Thurman's friends expect that he will have particular strength in the large number of counties penetrated by the canal system of the state on account of his recent valuable services as the Democratic member of the canal commission. There is also marked sentiment in favor of John H. Clark of Cleveland for the senatorial nomination although his immediate friends would prefer to have him run for governor. It is understood however, that Mr. Clark is more enamored of a senatorial endorsement, than any other honor within the gift of the convention.

An engine driver working from Crewe to London and back has to notice no fewer than 570 signals.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by all druggists.

## INCIDENTS OF POPE LEO'S BOYHOOD.

Pope Leo XIII. was at one time one of the most stout limbed and daring hunters in Italy, says Tit-Bits.

A companion of those days, now known as Father Selvagni, the aged priest of Carpineto, referring to the friend of his boyhood, once said: "What hunts we had together! We were up bright and early, scouring the forest; but Sir Nino was ever more fearless than I. He climbed to the very top of Melina and the Fageta, jumping chasms and scaling precipices none others dared attempt."

It was just midway between Trafalgar and Waterloo that "Nino" first opened his eyes on the hills of Carpineto, the eighth child of Ludovico Pecci, a colonel in the Italian army. It was through his mother, however, that he derived his strength of character and brain, and she in turn was a true daughter of Cola di Rienzi, the "great tribune," whose dream it was to give a new birth to the Roman republic.

His mother always regarded Nino as a special gift from heaven, and even when he was in his cradle she used to prophesy that one day he would sit on the "throne of St. Peter." Her letters are full of the wonders of this new child, whom she named after her hero, Vincenzo Ferrer, and when his age was measured by months she wrote:

"My little Vincenzo walks alone already and goes everywhere. He is passionately fond of horses. Although he is so small that you can hardly see him he jumps up and rides all the furniture without waiting for help from anyone. You may well imagine that this child is not the cause of much melancholy. Titta, an older brother, does nothing but make altars. The church has a great attraction for him." And yet, how strange it is, Titta was the only one of the family of nine children to marry, and Nino, who had all the early instincts of a soldier, was to become pope.

An interesting story is told of these very early days. One day a peasant woman brought a basket of cheeses to the Pecci home, and the little Nino, stooping in curiosity to look at the cheeses, fell into the basket.

"What do you want, brother?" the peasant asked laughing.

"I am not a brother!" the child answered, with a pout.

"What then, a cardinal?"

"No," answered the child's mother, taking him up proudly in her arms, "he is my little pope." And so it was to be, more than sixty years later.

As a boy Nino was the ringleader in everything that was mischievous or risky, and if there was a bully to covet or a daring feat to be done it was always Nino Pecci who was in demand. And yet, through all these boyish pranks, the boy's great future might have been seen by a discerning eye. At school his beautiful face earned for him the nickname of "the little angel" and "mother of piety," and if there was an act of kindness to be done he was always the first to think of and to do it.

One day on his way home he found a peasant boy lying hurt by the roadside. He had been knocked down by a cart and feared that his leg was broken. Nino ran to a neighboring spring, filled his cap with water, gave the boy some to drink and with the rest bathed his leg. When he was sufficiently recovered he raised the boy and, half supporting, half carrying him, started on the long journey home.

At this point Nino's tutor overtook him and gave him a lecture on his imprudence.

"What will your parents say," the teacher asked, "when you take this dirty ragamuffin home?"

"They will say that I have done

right," Nino proudly answered. "Is it so unusual, then, to help a hurt child? Wouldn't every one do as I am trying to do?"

The Rome correspondent of the Pall Mall Gazette relates this experience of the pope with some smugglers:

Leo XIII. remembered with interest the mission given him by Pope Gregory XVI. when he was only twenty-eight and only a few weeks after he had celebrated his first mass. At that time the province of Benevento, which belonged to the Papal States, but was almost surrounded by the territory of the kingdom of Naples, was in a much worse degree than Switzerland now is, a nest of smugglers, brigands and revolutionists. To put an end to this state of things the then Mgr. Pecci was sent there as papal delegate—that is to say, with full powers. He acted with extreme energy, once sure of the troops at his disposal, attacking the leaders of the malefactors, dispersing their bands and making most of them prisoners.

In this work Mgr. Pecci was greatly assisted by a brave and intelligent officer, Signor Sterbina, who became his confidant, and when the ecclesiastic was elected pope he nominated Sterbini as scudolo segreto (secret carver).

Mgr. Pecci had to resort to drastic measures to stamp out smuggling, for it was practiced and supported by the most prominent people of the district. In fact, a certain marquis, who was suffering under the rigorous orders given by the delegate, was audacious enough to go personally to Mgr. Pecci to complain of what he called "the want of respect" shown by the customs officers toward him. The pope's representative began by treating the marquis with courtesy, pointing out that the laws applied equally to all, high and low; but this reasoning, instead of convincing the marquis, made him so angry that he declared he would go to Rome and not rest until he had obtained the delegate's recall.

"Very well," answered Mgr. Pecci with that dignity and calmness which characterized him; "take your complaints to Rome, but do not forget that to go to the Vatican you have to pass by Castle St. Angelo (the famous prison). That same evening Mgr. Pecci had the castle of the marquis surrounded by the pontifical troops and every soul in it arrested. His suspicions that the place was the headquarters of a band of smugglers were fully confirmed.

All persons are required to kneel when before the pope. Catholics are expected to kiss the papal ring, and it is left optional with them whether or not to kiss the pope's foot. Protestants are, of course, required to do neither. Many of them, however, voluntarily kissed the ring, for the gentle bearing and simple dignity of Leo XIII. impressed every one with respect. The occasions were rare indeed when Americans showed themselves lacking in the amenities of the place, and even these rare exceptions were of trivial importance, says the New York Herald.

One such episode occurred at a reception. When the pope approached the American group several Catholic women prostrated themselves before him and kissed his slipper. When he had given his blessing he passed on to several others who were not Catholics and extended his hand. Two of the women kissed his ring, but a young girl who was with them, although kneeling, very plainly manifested her determination not to do as the others had done, and, ignoring the outstretched hand, contented herself with inclining her head as the aged man stood before her.

There was something very like a smothered murmur of consternation

throughout the hall. The pope could not have helped noticing the girl's attitude. An amused smile passed over his face and he said to the young woman in Italian, "You are one of my children, just like the others, even if you do not like me." Then, the gentleness and tenderness of his face increased as he looked down at the girl and gave her his blessing. When he had passed on to the next group somebody translated to the rebellious young woman what the pope had said. She knelt there for a minute or so, looking at the aged man's face; then she rose hastily and, rushing over to where he was standing, threw herself impulsively on her knees before him and said: "I am ashamed. I am so sorry! Please let me kiss your hand."

The pope, of course, could not understand the words, but the girl's meaning was clear from her manner, and the little, thin, trembling hand of the pontiff was raised to bless her again, when the girl bent over and reverently kissed it. "Everything is well when the heart is right," said the pope tenderly, and there was a suspicion of a tear in his eyes as he moved on to the next kneeling figure.

One of the anecdotes related of the pope by Hall Caine in Household Words is of special interest, as it shows in a vivid manner the ties of kinship in the Pecci family. He says:

"Since the Italians entered Rome in 1870 the attitude of the Vatican has been one of protest against the power which has arrogated its sovereignty. One form of this protest has been the absolute retirement of the pope within the limits of his exterior domain. It is held by the Catholic party that for the pope to go out of the Vatican for an hour or for even so short a journey as the width of the piazza of St. Peter's would be to compromise his claim, to acknowledge the supremacy of the usurping king and to expose himself to the insults of an unbelieving and rebellious populace. Be that as it may, the conviction is deeply rooted in the Catholic mind that since the date of Italian unity the pope has never so much as set foot in the streets of Rome, and that having entered the Vatican as a cardinal he can only come out of it as a corpse. This is not the fact. Once, at all events, Leo XIII. passed through the city of King Humbert, and the occasion of his doing so was so proper, so human and so touching that the highest considerations of diplomacy and dignity must sink out of sight in regard to it.

"The pope had a brother who late in life became a religious and voluntarily took up the humblest position in the kitchen of the Jesuit order. In due course he rose to be a cardinal, and in his latter days he occupied apartments in the Barberini palace, now let out in suits of rooms. Old Cardinal Pecci was in his last illness in the Palazzo Barberini, while his brother, Leo XIII., was imprisoned by state protest in the Vatican, on the other side of the Tiber. Messages of love and sympathy passed between them day by day, the cardinal received his last sacraments, and the end was near.

"One night late, very late, a lady was coming out of her apartments to step into her carriage, on her way to a midnight reception, when a plain hired coupe drew up in the piazza and a venerable old man in the black cassock and black beaver hat of a simple priest got out. By the light of the lamps in the arches she saw his face. It was the pope. With a feeble step he walked to the door of the cardinal's rooms and passed through, and the lady went on to the reception. Next day the Cardinal Pecci died."

"Money seemed but poor and paltry compared to health, and yet a few dollars invested in Lydia E. Pinkham's Vegetable Compound brought me good health. I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was trifling, and I would lie awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of its advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. Everything was in keeping with the character of the entertainment and yet nothing was omitted which could in any way add to the comfort of the guests.

The wigwam was lighted by numerous Chinese lanterns and, farther, decorated with hanging bouquets of fragrant blossoms. The center table was

loaded with a variety of attractive articles piled into fancy baskets of all shapes and convenient sizes, while the serving was marked by many pleasing novelties. ## PRESIDENT'S VACATION.

How Roosevelt is Spending the Summer at Oyster Bay.

### HORSEBACK RIDING A GREAT FAD.

Chief Executive Will Not Miss His Ride, No Matter What the Weather Conditions May Be—He Plays Tennis With His Children and Delights to Romp With Them—Singlestick Exercises Also Practiced.

President Roosevelt's vacation this year will be one of most rigorous training. He realizes that he is putting on flesh too fast and will devote the summer months to exercising. On his recent western trip he added not less than twenty-five pounds to his weight, and it was very noticeable to his neighbors upon his return to Oyster Bay, N. Y., a few days ago, says the New York World.

Ever since his return he has been living the same as a boat crew at the training table. Everything that tends to add flesh is tabooed. The president is very fond of sweets, and these have been cut off. He is a hearty eater and, while not fasting, is eating sparingly, and all farinaceous foods are omitted from his meals.

Horseback riding is one of the president's greatest fads. He finds that it tends to reduce his weight, and as a result he goes daily for a ride along the various shady roads near Sagamore hill. The president does not like to jog along the roads. He rides like a trooper, and when he starts it is always with the intention of making a good, hard run of it before he returns. The rides usually begin with a slow trot, which is followed by a gallop, and when the horse is thoroughly warmed up he is urged into a hard run.

The president is a good deal of a joker on his horseback rides. "When he is tearing along the roads on Bleistein or Wyoming, his two favorite horses, he will suddenly pull up and wait for the remainder of his party to come up with him. With a yell that he learned while "cow punching" in the west the president will wave his wide brimmed sombrero and start on another run. This usually results in the horses of the remainder of the party attempting to overtake him, much to the discomfort of the riders.

On the return to Sagamore hill the president's mount is usually steaming. When near his home the president comes in on a dignified jog trot. Bleistein has a gait known as a "fox trot," which is one of the easiest known to riders. The new horse Wyoming is also well gaited. Wyoming is still a little strange to the Long Island roads and is not being ridden as much as Bleistein.

Lawn tennis is another of the less strenuous exercises of the president by which he expects to reduce his weight and get himself in good condition before he is compelled to return to Washington at the end of the summer. He usually plays this with the children shortly after luncheon.

The keenest rivalry exists among them as to the best sets played with their father. Little Miss Ethel is a favorite partner of the president in this game. Teddy Junior and Archie have beaten their father at the game, but seldom. The president does not like to be beaten. The president places some very difficult back court strokes. His "slicing" in serving completely fools the children, but they are getting on to his plays and the games are not nearly so one sided as during last summer.

The president plays without a coat or hat and wears low shoes. The children are expert enough to keep their father pretty busy, and after a few turns he is dripping perspiration. The president is willing to play tennis with almost any one who is expert. Visitors are asked if they can play, and if so games are arranged on the spot.

General Leonard Wood, formerly military governor of Cuba, taught the president many of the "setting up" exercises used in the army. "The president is a devotee of exercising without apparatus." He does not like the idea of pulling weights, wands and dumbbells. He does not practice the "setting up" exercises publicly. They are always done in the privacy of his home and are never witnessed by any one save the immediate family.

Teddy Junior and Archie are being taught singlestick exercises by the president, who is not an adept in their use, but manages to put in considerable time and incidentally take off a few pounds a week at the exercise. The broadsword will come next. This is the hardest kind of exercise, and it is possible some of the intimates of the president in the army will be asked to Oyster Bay and the president will enjoy a few bouts before he goes away.

Since his arrival at Oyster Bay the president has been an early riser. He is always up at 7.30 o'clock in the morning, and after a tub and a little exercise is ready for breakfast, which is over before 9 o'clock. After breakfast the president reads the newspapers and talks with his secretary. Occasionally he devotes an hour to his mail. Then there is tennis or the inevitable horseback ride. The president will not miss his ride, no matter what the weather conditions may be. The first ride is finished just in time for luncheon, which is served between 1.30 and 2.30 o'clock in the afternoon. After luncheon, when the president has visitors he talks with them until about 4.30 or 5 o'clock. If they are very intimate friends they remain for dinner. When the visitor cannot ride horseback the president has his carriage without a top hitched up and gives his guests a ride about Sagamore hill. No matter what guests are present

Brother J. T. Kirk state president of the N. A. S. E. of West Virginia, made an eloquent talk on the engineers of Ohio. He said that the engineers of Ohio were fifty per cent better qualified to handle the steam plants in their charge than they were before the state license law went into effect. Brother Kirk also read a paper on "Dry Steam" in which he showed very clearly how dry steam would add to the efficiency of any steam plant, that there were three ways of obtaining dry steam, but the cheapest and best results were obtained by mechanical separation. **IF YOU ARE SICK**  
And need medicine for your Kidneys, Liver, Bladder or Blood, get the Best.  
**Dr. David Kennedy's Favorite Remedy.**

If you are suffering from kidney or bladder disease, the doctor asks: "Do you desire to urinate often, and are you compelled to get up frequently during the night? Does your back pain you? Does your urine stain linen? Is there a scalding pain in passing it, and is it difficult to hold the urine back? If so, your kidneys or bladder are diseased."  
Try putting some of your urine in a glass tumbler, let it stand twenty-four hours. If there is a sediment, or a cloudy, milky appearance, your kidneys are sick. Dr. David Kennedy's Favorite Remedy will surely relieve and cure the most distressing cases of these dread diseases, and no physician can prescribe a medicine that equals it for kidney, liver, bladder and blood diseases, rheumatism, dyspepsia and chronic constipation.  
Walter D. Miller, of Delhi, N. Y., writes:  
"I suffered for years with kidney trouble and severe pains in my back, at times it was so bad I could hardly walk. My stomach also troubled me and I frequently had twinges of rheumatism. I suffered a great deal and received no benefit until I began the use of Dr. David Kennedy's Favorite Remedy. After taking it a short while it cured me."

**Very Remarkable Cure of Diarrhoea.**  
"About six years ago, for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' subscriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial or a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by all druggists.

An authoress of some note in her day once asked a famous editor to give his opinion on a book which she intended to publish. In her letter she said:

Having read over several pages of the manuscript, the editor returned it with the following brief remark:

# HAPPY WOMEN

Plenty of Them in Newark and Good Reason For It.

Wouldn't any woman be happy. After years of backache suffering. Days of misery, nights of unrest. The distress of urinary troubles. She finds relief and cure? No reason why any Newark reader should suffer in the race of evidence as this:

Mrs. David R. Jones, 23 Poplar avenue says: "Every morning I had such a sharp pain in my kidneys. I was hardly able enough to turn my body to get out of bed. When I kept moving around I did not feel it so much. But if I sat still or laid a while it became quite severe. My husband brought home one day from Crayton's drug store a box of Doan's Kidney Pills, and they started them. Imagine my surprise and pleasure when I found they had rid me of the pain in my back and toned my appetite. It's a good thing to be free from backache."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute. 132

## OF NEW MASONIC CLUB DEDICATED FRIDAY NIGHT.

Many Masons of the City With Their Ladies Attended the Brilliant and Successful Function.

The reception given by the members of the new Masonic club of this city to the Masons of the city and their ladies as a sort of formal opening and dedication of the new club rooms on Friday evening, was a decided and brilliant success in every particular. Every Mason of the city, with his lady was invited, whether he was a member of the club or not, and in response to this invitation some four hundred Masons and ladies assembled at the hour appointed in the handsome club rooms. The rooms, which occupy the second floor of the Masonic Temple, in the Rider block on West Main street, were brilliantly lighted and with the handsome new furniture and beautiful decorations were very attractive. As the ladies entered the hall each one was presented with a carnation as a souvenir of the event. It was decidedly a ladies evening, and they enjoyed to the fullest extent the privileges of the billiard tables, the pool tables and all the other attractions of the club, and it was the universal comment that the occasion was one of the most social events ever witnessed in the city. The Board of Directors of the club, and the higher officers of the two Masonic lodges, formed a very effective reception and entertainment committee for the evening. Choice refreshments were served at daintily appointed tables.

bles, and cooling punch and lemonade were dispensed during the evening. An automatic player attached to an Eber sole piano from A. L. Rawlings' music store, skillfully manipulated by Noel Armstrong, furnished delightful music for the evening.

The event was one thoroughly delightful in enjoyment and will linger long in pleasant memory.

# WILLIAMS-KENNON.

A quiet wedding was solemnized at the home of Rev. Mr. Miller on North Fifth street, on Friday evening, July 10th, at 8 o'clock, the contracting parties being Miss Jennie Kennon and Mr. Eli Williams. The bride, formerly of Quaker City, has resided in Newark for the past two or three years, where she has made hosts of friends by her lovable disposition and true womanliness. The groom is an estimable young business man of Pittsburg, Pa. The happy couple left at 6:15 o'clock this morning for Quaker City and Barnesville, where they will visit for several days, before going to their future home at Pittsburg. May peace and happiness attend their footsteps is the wish of their many friends.

# Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equalled. Joe Golobick of Colusa, Calif., writes. "For 15 years I endured insufferable pain from Rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by Frank D. Hall, druggist.
